TO AILING WOMEN

A Little Sound Advice Will Help Many A Sufferer in Norway

No woman should consider herself healthy and well if the kidneys are weak. Poisons that pass off in the secretion when the kidneys are well, are retained in the body when the kidneys are disordered. If the kidneys and bladder become inflamed and swollen, worse troubles may quickly follow. This is often the cause of bearing-down pains, lameness, backache, etc. Urine poisoning is also frequent cause of headaches, dizzy spells, languor, nervousness and rheumatic pain. When suffering so, try Doan's Kidney Pills, a remedy that has proven effective in thousands of such cases. Let a Norway woman tell of her experience.

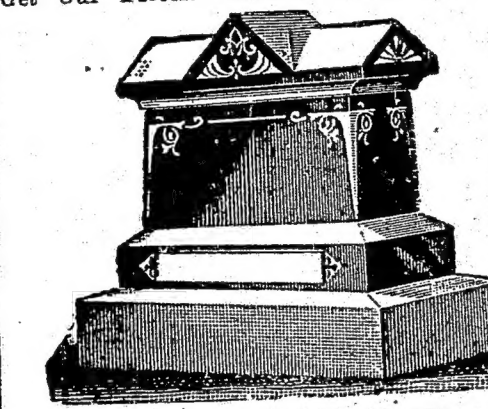

Mrs. A. L. Sanborn, Beal street, says: "I am perfectly satisfied Doan's Kidney Pills are a dependable medicine to relieve ailments resulting from disordered kidneys. I used them a few years ago and gave them a thorough trial. Since then I have had no return of kidney complaint and on that account I place a great deal of confidence in Doan's."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Sanborn had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

attended felt well repaid for the effort
while listening to Rev. Mr. Collins' ser-
mon from the text "I make all things
new." As may be imagined, he spoke
of the reconstruction period, and he al-
so spoke of the life and death of Theo-
dore Roosevelt. The evening service was
very interesting, although not largely at-
tended.

James Packard recently received a crate
of nice oranges from his father, George
H. Packard's, fruit ranch in California.
Vernal and Leon kindly presented their
Sunday school teacher with some of the
delicious fruit, which she highly appre-
ciated. "Little deeds of kindness" go
far toward making this old world of ours
an excellent place in which to live.

Word has been received that Fred
Waterhouse, a native of Summer, who was
severely wounded in France, has arrived
in New York and his wounds are healed.
Claude Brown, who formerly lived in
this place, has returned to his father's
home in Massachusetts. Although he
left one leg in France, he is well and
happy, with that irrepressible cheerfulness
that seems to characterize Uncle
Sam's soldier boys.

Mrs. Dennis Parlin is to teach the next
term of their school. The scholars are to
meet at her house for afternoon sessions.

The village school is under the instruction
of Harold Gammon, who has been
taking a course in military training at
U. of M. The schools have been badly
broken up by the influenza, but we hope
they may now go on without interruption.

NORTH WATERFORD

Birthday Celebrated
Margorie Matherson's birthday party
at Grange Hall, Jan. 11th was a most en-
joyable occasion, although the night
was cold, it was quickly forgotten—every
one was having so good a time.

Linwood Flint and Mrs. Mattie Lord
furnished music for the dancing and at
intermission a delicious treat of candy
was served, friends from Portland, Kenne-
bec and Norway were present besides a
goodly number of neighbors to help cel-

THE MOST

DANGEROUS DISEASE

No organs of the human body are so
important to health and long life as the
kidneys. When they slow up and com-
mence to lag in their duties, look out!
Find out what the trouble is—without
delay. Whenever you feel nervous,
weak, dizzy, suffer from sleeplessness,
or have pains in the back—wake up
at once. Your kidneys need help. These
are signs to warn you that your kid-
neys are not performing their func-
tions properly. They are only half
doing their work and are allowing im-
purities to accumulate and be con-
verted into uric acid and other poisons,
which are causing you distress and will
destroy you unless they are driven
from your system.

APPENDICITIS AND INFLUENZA

Dr. Judkins writes us: From publications like N. A. Medical Herald asking my price for articles, to instructing people and almost "paying for the privilege," is a long ways. But one cannot sell his birthright; and "that these dead shall not have died in vain," let the truth be told!

The Author of the "Triangle of Health" (New York, 1918) says: "I would not sell my appendix oil gland for \$50,000."

In 1896-8 articles on "Appendicitis 50 Years Ago" (Maine Journal of Medicine & Science) Dr. Judkins showed the disease, as now known, was never then treated successfully without operation. He now says he cannot follow present day Medicine as its cycle returns to the barbarism of savages and the practice of pagans.

His new book "The Triangle of Death: Disease, Doctors, Drugs With Sequel, Trail of the Serpent" (Copyright 1919) proves the squirt-gun science treatment, called by medical men Bacterial Vaccine Therapy takes us back to prehistoric days, when primitive man made himself immune to poison by repeated small doses—a homeopathic principle, accepted by allopaths—while savages protected themselves from snake-venoms, as well as arrow-poison, by similar methods. The horse equally with the human "flu"—each a disease of crowds and contact—carried or caused by filterable virus so small as to pass through finest porcelain filters unseen by highest power microscope, must be reported by the sixth-sense, Six-Eyed, Stealthy Steve Sleuths—the bug-hunting medical-scientists—who so readily isolate and identify this infinitesimal little "cuss" from all other bacterial buzzards, as of common colds, you know! Do they know!

The Health League treats all alike, by Auto-Therapy: Elimination through skin, via sweat; thru bowels, via colon. Food-rest; nothing but water until fever goes and hunger returns. Hence, no auto-infection; no pneumonia can develop, and absolute quiet in bed brings one out bright and well, cheaply, easily and without complications. E. H. Judkins, M. D. (Natur-Auto-Therapy) Cosmopath. Family member Maine Medical, Surgical Faculty of Maryland, Medico-Legal Society of N. Y., and American Medical Association. Home address: Melrose, Mass.

WEST STONEHAM

Edgar and D. E. McAlister of West Lovell visited their uncle, Edgar McAlister who is ill at John Adams where he has been staying for some time.
Eva and Edith Grouse of North Waterford are visiting their grandparents, Mr. and Mrs. L. A. Andrews.
Sunday morning was the coldest weather we have had. The thermometer registered 20 below zero at sunrise at I. A. Andrews near Lake Kezar.
Edgar McAlister passed away Monday, January 13, after a long sickness of failing health. His son, E. O. McAlister of Auburn was announced Sunday but did not get there until the end came. He has been cared for by Mr. and Mrs. John Adams since last May.
One of the neighbors says, it is all right to brag over the pipe they raise, but when it comes to buying they want to get I. A. Andrews of North Lovell to show them how to do it. He went over to Cedarbrook Farm, Norway and bought a shoat to feed and fatten a few weeks and one day this hog gave birth to 7 nice pigs. I say, he never got so many pigs for his money before, and when the pigs were two weeks old they weighed nine pounds a piece.
Stillman McAlister made his sister, Mrs. Herman Richards of East Stoneham a short visit.
I. A. Andrews has been hauling hay which he bought of parties in North Waterford the past week. There seems to be a scarcity of hay among some of the farmers owing to the low price of stock.
Theodore McAlister has finished working. Harry McKee has gone to his home at Lovell.

January is the Month of Money Saving

January has always been recognized as the saving month of the year and it's merely because the merchandising policy of this store provides for the selling of each season's goods within that season that such prices as now rule are in force. However, the Winter season has really just begun, in consequence of which the very merchandise that you will be most in need of now can be purchased at lower cost than those which ruled earlier.
